

How to Choose the Bed that's Right for You - from OneStop Beds in Nottingham

There's a lot of choice in today's market. So much so it can be confusing when you want to choose the right bed for you! Fortunately this handy buying guide from OneStop Beds in Nottingham is here to help you make the right choice for your bedroom.

There are two main types of bed to select, so let's start by going through the pros and cons of each:

1. Bed Frames

Bed frames are great for people looking for a classic look, with space beneath the bed for storage.

Pros:

- Easier to disassemble and transport
- Available in a wide range of materials - from incredible-looking hardwoods to inexpensive photo-finish laminates
- Classy look tends to suit all kinds of decorating schemes
- Don't require a separate headboard

Cons:

- Tend to be more expensive than divan beds
- Less expensive bed frames tend to be more fragile than divans or high-quality hardwood bedframes

2. Divan Beds

Divan beds are wonderful for people wanting a modern look which can be changed to fit with different colour schemes with valance sheets.

Pros:

- Tend to be cheaper than bed frames
- Can be covered with valance sheets to suit any decor style

- Many models offer tidy, out-of-sight storage
- Many models are also sprung for extra comfort

Cons:

- Less easily transportable
- Require a separate headboard

So Which is For You?

Other than considering the pros and cons of each style, mostly, it really is a question of taste. There's a great likelihood that you're already leaning towards one particular kind of bed. Go with your instincts!

However, it's always best to consider the style of the bedroom your new bed is going to become a part of. If, for instance, you've got a bedroom with a lot of dark wood furniture, then a beautiful mahogany bedframe with a luxurious mattress would look stunning. If your bedroom furniture is mostly lighter wood, then a fresh, modern looking white divan bed would fit perfectly.
